

*nourish healthily
& enjoy it hot*

80 years of experience and innovation

Rommelsbacher was founded in 1928 by graduate-engineer Gustav Rommelsbacher and is still family-owned, run by the third generation. Being a medium-sized family enterprise, both construction and production are carried out in our works in Dinkelsbühl, the beautiful and more than 1,000 year old town situated at the Romantic Road.

We offer a comprehensive product range of attractive small electrical appliances for kitchen, garden, travelling and leisure. Our first-class quality is guaranteed by modern production and test facilities. All appliances comply with the relevant safety and test standards.

Our strong points – Your advantages

- An innovative programme – featuring products “Made in Germany”
- A team distinguishing itself by flexibility, efficiency and great commitment
- A production run in compliance with the integrated Quality and Environmental Management System, certified according to DIN EN ISO 9001 and validated according to the EC CO Audit Regulation 1836/93

Programme 2008

Healthy cooking & Preserving

Steam cooking	4

Baby Care Line

Baby food warmer, disinfectant	31
Baby's changing-table radiator	

Healthy cooking & Preserving

cooking the healthy way enjoying delicious food

Valuable vitamins get preserved, foods are prepared in a fat-free way! The result: abundant taste involving little energy consumption. The steamers are versatile in use: vegetables, potatoes, rice, but also fish, meat and desserts come out perfectly.

Steam Cooking

DGS 800
230 V · 800 W

Electronic version - with plastic trays

- stainless steel casing
- turbo-steam function
- 3 steam trays (3 litres each)
- LCD Display
- 24-hour start time pre-selection
- audible signal upon programme finish
- water tank refillable from outside
- condensate collecting basin
- keep-warm function

DGS 1000/E
230 V · 1000 W

Easy to operate - superior finish

- robust and stable base
- 2 stainless steel steam trays (6.5 l + 3.5 l)
- high-quality glass lid
- heat-proof handles
- condensate collection basin
- water level indicator
- automatic switch-off when short of water
- 75-minute timer
- big pilot lamp

Health - our most valuable property! To make healthy cooking easier for you, we developed the Biological Oven in cooperation with nutrition specialists.

Biological Oven

- low temperature cooking + gentle cooking + menu cooking
- allows valuable nutrients and vitamins to be retained
- up to 60% less of roasting losses
- especially tender and juicy meat
- with core temperature measurement via meat probe
- minimized expenditures of time and energy
- fully-automatic electronic cooking process
- simple operation with user guidance
- with 12 fixed and 8 freely-assignable digital programmes
- full-function oven featuring upper/lower heat and grill setting
- interior illumination, meat probe

BGO 1600/E
230 V · 2200 W · stainless steel

- oven chamber 40 l, timer, partitioned oven chamber
- stainless steel cooking pans and steam insert in GN-format included

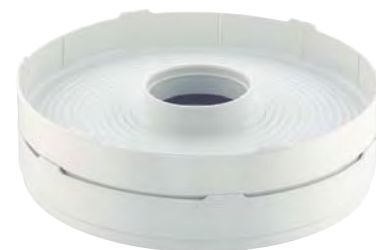

Fruit, vegetables, mushroom and herbs desiccate easily and evenly in the hot air stream, without using any preserving agents. Vitamins, nutrients and minerals get preserved, flavouring substances concentrate.

Automatic Dehydrator

DA 750
230 V · 700 W · white

- healthy, easy desiccating
- 3 output levels 250 / 500 / 700 watt
- 12 hours timer
- with automatic switch-off
- 4 plastic dehydration shelves
- easy to clean, also ideal for herbs
- can be used with up to 8 dehydration shelves

DE 100
2 dehydration shelves as an add-on kit

Accessories for Vacuum Sealers

The extensive set of accessories makes you to go for freshness!

- Containers, foils and bags, lids and caps for vacuuming

Preserving flavours, keeping freshness, portioning in a clever way! Prolong the shelf life of food by 3 to 5 times as much!

Vacuum Sealers

VAC 50 KOLIBRI

Super easy to handle, super practical, super quick

- for vacuuming in containers and with covers
- turbo-type vacuum sealing within only 5 seconds
- always ready for use in the practical holder

inclusive:

- high-quality container (1 litre) with clip-lock and date display
- universal lid (100 mm ϕ)
- bottle cap

VAC 100 MINI

The little one that will bring fresh ideas to you

- for vacuuming in foils, bags (20 cm) and containers
- generation of vacuum conducted manually
- sealing either automatically or manually
- hose port to vacuum seal containers
- inclusive of vacuum hose, foil roll, 10 bags and foil-cutter

VAC 200 PREMIUM

Planning and preserving as easy as winking

- for vacuuming in foils, bags (30 cm) and containers
- suction and sealing is done automatically
- vacuum is manually adjustable
- pilot lamps, cable compartment
- hose port to vacuum seal containers
- inclusive of vacuum hose, 10 bags and foil-cutter

VAC 300 EXCLUSIVE

Preserving freshness in an easy but professional way

- for vacuuming in foils, bags (30 cm) and containers
- fully automatic vacuum sealing process
- vacuuming and sealing process both manually adjustable
- booster-level and twofold adjustable sealing seam
- safety cutting facility
- also qualified for wall mounting
- cable take-up and cable compartment
- hose port to vacuum seal containers
- inclusive of vacuum hose, 20 bags, foil roll and opener for Leifheit-type jars

Auto-Preserving Cookers

- infinitely variable temperature regulation
- with integrated precision thermostat
- pilot lamp and overheating protection
- closed pot bottom, easy to clean
- acid-resistant 2-layer enamel coating
- juice-extraction setting, grid insert
- fully-automatic unit with automatic preserving system
- holds 27 l or 14 jars containing 1 litre each

With the auto-preserving cookers you can enjoy the fruits of summer all the year round. Also use the units for other practical applications, e.g. for preparing mulled wine or keeping warm large quantities of food, or combine it with the juice extracting top.

*Enjoyment
in conviviality*

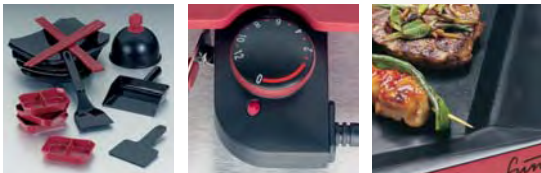

The very special grilling pleasure - tasty, light and inventive!

Party Grill Set

FG 2200/S FunTasia
230 V · 2200 W · red

- healthy grilling pleasure in the Tepan Yaki style
- also perfect for desserts, roast potatoes and fish
- heat-resistant synthetic casing, hexagonal design
- lift-up foot for slant position for low-fat grilling
- large non-stick grill plate with oil-collecting channel
- removable plate, very easy to clean
- temperature is infinitely variable from 1-12
- with steamer cup and grill cutlery

FG 2200/S features additionally:

- 4 plates, dip dishes and suitable chopsticks

Party Grill

FG 2204/SE Special Edition
230 V · 2200 W · silver-grey

funTasia

The unique design grill for low-fat grilling on original Schott Ceran® glass features a grilling temperature of up to 380 °C – the ultimate perfection of grilling!

Ceran® Grill

CG 2303/E stainless steel
230 V · 2000 W

- Ceran® contact grill surface
- energy regulator, infinitely adjustable
- quickly heats up to 380°C
- retractable knob, splash-proof
- fat collection channel, removable
- slant position for low-fat grilling
- integrated keep-warm zone
- cleaning scraper included

KG 2000 TwinSet
230 V · 2000 W
graphite-grey metallic

Multi & Comfort Grill

- contact grill appliances in three variations
- temperature is infinitely variable, pilot lamp
- non-stick coated grill surfaces, detachable for easy cleaning
- position lock for cooking au gratin
- double size grill surface if opened

KG 2000:

- 2 thermostats allow for a separate regulation of the grill plates

*Raclette – the tasty amusement for a convivial evening!
Our many-sided programme meets all demands.*

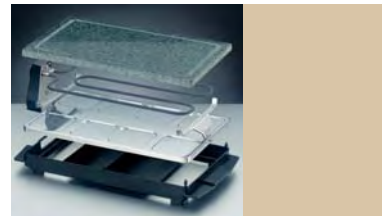

Raclette

GUSTO:

- fat-free grilling on a grill plate of superior natural stone
- scratch-resistant and cut-proof, with dripping groove integrated
- easiest cleaning because unit can be dismantled completely
- 8 non-stick coated pans, 8 spatulas
- pans can be stored inside the appliance to save space
- infinitely variable temperature regulation

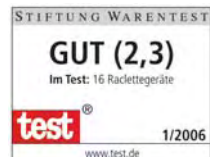

RCS 1207 Gusto
230 V · 1200 W

OTTIMO:

- noble design, superior equipment
- cast aluminium grill plate, non-stick coated
- convex, ideal for low-fat grilling
- parking surface for hot pans not in use
- 8 non-stick coated pans, 8 spatulas
- infinitely variable temperature regulation, pilot lamp

RC 1200 Ottimo
230 V · 1200 W

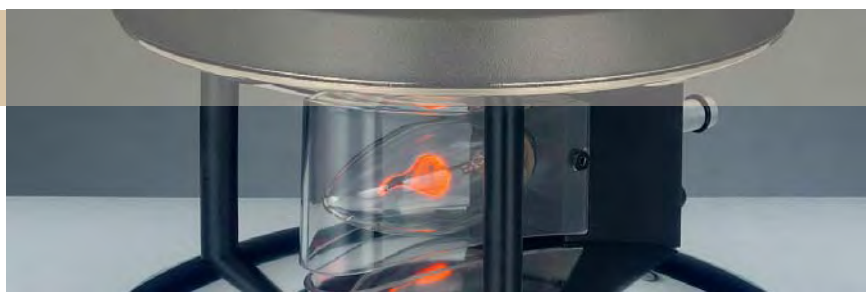

FORNELLO:

- the small table-top kitchen
- pan grill, raclette and baking appliance all in one
- for raclette and toasts, for cooking, roasting and grilling
- cast aluminium pans sized to toast bread
- parking surface for hot pans not in use
- infinitely variable temperature regulation, pilot lamp

GF 900 Fornello
230 V · 900 W

*Candlelight look for unforgettable hours.
Perfect heat distribution, ideal for fondues
prepared with oil, bouillon, cheese or chocolate.*

Electric Fondue

- cosy ambience through simulated flame look
- infinitely variable temperature regulation
- candlelight bulb fitted with acrylic glass splash guard
- superior cast-iron designer pan with rubber-coated handle
- 8 extendable fondue forks
- stainless steel anti-splash insert with fork stop

F 400/E Harmony
230 V · 400 W

- heating unit is a full-function hot plate
- can also be used as a mobile cooking plate and for Wok cooking
- superior genuine cast-iron heating plate
- temperature infinitely variable
- with overheating protection and automatic cooking system
- control panel with pilot lamp integrated
- high-grade stainless steel pot
- stainless steel anti-splash insert with fork stop
- 6 fondue forks with colour marking

F 1199/E
230 V · 1100 W · 145 mm Ø · stainless steel

*Cooking in the Wok – that's the healthy
Asian cuisine. But also European recipes
can be prepared easily and in a vitamin-
preserving way. Enjoy it to the full!*

Gourmet Wok

- mobile cooking facility, also suitable as a warming tray at table
- cast-iron heating plate, temperature infinitely variable
- control panel with integrated pilot lamp, overheating protection
- Wok made of cast aluminium, non-stick coated
- with glass lid and accessories

GW 1199/E Wok Set
230 V · 1100 W · 145 mm Ø
Pot made of cast aluminium

WT 31
Pot made of cast aluminium, non-stick
coated, with glass lid and accessories
(without heating appliance)

Not only French fries and escalope, but also fish, vegetables and pastries come out crusty and delicious. Innovative technique meets modern design.

Deep Fryers

- sophisticated workmanship, optimum functionality
- total-clean system for super-easy cleaning
- detachable lid with inspection window and filter
- infinitely variable temperature regulation, power control lamp
- control lamp indicating ready-to-fry status
- basket can be lifted/lowered with cover closed
- heat insulated handles, condensate collection basin

FR 2125/E:

- cast aluminium frying container, removable
- basket-lift facility via a handle with lid closed

Pleasure in Boiling & Cooking

Induction – the quickest and most efficient way of cooking. A magnetic coil generates heat directly in the pot bottom and provides for an efficiency of more than 90 %. At the same time, the cooking zones stay almost cool. Save time and energy while enjoying perfect ease of use!

Induction Line

Cook more efficiently - 90% efficiency!

Save energy cost - 50% energy saving!

Save time - 30% quicker cooking, no pre-heating time!

Induction cooking utensils - check with magnet on the pot bottom

- glass ceramic cooking surface, very easy to clean
- pot recognition, energy saving and safe
- temperature selection in 5 settings from 70°C (keeping warm) up to 230°C
- power selection in 9 settings, cooking time pre-selection up to 99 minutes
- automatic switch-off and signal tone
- integrated safety functions, overheating protection
- residual heat indicator, power control display

CT 2015/IN stainless steel
